

Are you or your business experienced in transport refrigeration, mobile air conditioning, diesel mechanics, auto electrical and want to learn more about transport refrigeration?

We are looking for businesses with skilled and motivated transport refrigeration technicians to provide service coverage in all areas of Australia.

- Nationwide support network
- Technical training & support
- Generous spare parts discounts
- Prompt and reliable payment
- Online portal access to unit history & warranty information
- 24 hour breakdown call centre

Carrier Transicold are world leaders in the transport refrigeration industry. Due to continued growth of our customer base, we are looking to develop working relationships with high quality service providers particularly in regional areas of Australia.

Our service operation incorporates service, maintenance, repairs and installation of equipment for the transport refrigeration industry.

This is a great opportunity to work alongside a global brand in a challenging and rewarding industry with the potential to grow your customer base. We are committed to providing top shelf customer service and cutting edge technology within the transport industry.

Previous service experience in the transport refrigeration industry will be very well regarded as will experience working in both a workshop environment and on site servicing. However we strongly encourage applications from automotive mechanical / electrical trades with air conditioning experience to contact us.

We offer an attractive hourly rate, generous parts discounts, good training and prompt payment of your invoices. If you are looking for a new challenge and to work alongside a global company with plenty of opportunities then we would like to hear from you.

If you are interested contact:
Stephen Bozman on 0438 438 209 or Steven.Bozman@carrier.utc.com

Please note all applications will be treated in strict confidence

About Carrier Transicold

Carrier Transicold helps improve transport and shipping of temperature controlled cargoes with a complete line of equipment and services for refrigerated transport and cold chain visibility. For more than 40 years, Carrier Transicold has been an industry leader, providing customers around the world with the most advanced, energy-efficient and environmentally sustainable container refrigeration systems and generator sets, direct-drive and diesel truck units, and trailer refrigeration systems. Carrier Transicold is a part of UTC Climate, Controls & Security, a unit of United Technologies Corp., a leading provider to the aerospace and building systems industries worldwide.
